7 Linked Tours from Dec 12th to Jan 29th activity program and homestay options

Your students are staying for the summer and now what to do?

Smylies have spend the last 2 months putting together a summer program that aims at ensuring you and your students get the deserved time off that everybody needs.

Smylies can offer a few options to make this time special for them rather than becoming an in room, PC connected drag along with frustration for your department, host families and agents.

To ensure your student gets the attention he/she deserves, and you get your **time off with your family** so you are ready to face 2021 and the challenges it is going to offer please look at :

<https://www.smylies.co.nz/Tours-and-Transport/202021-Summer-Program>

All Activity and Tour programs are designed to integrate with each other to suit all budgets and interests.

We understand not all students want to be physically active for the whole summer, so we have designed the program as a typical teenage lazy (but secretly active), guaranteed to recharge the batteries program.

All tours include:

- Transport and accommodation
- Activity costs as per posters
- 3 meals per day and pastoral care
- A pastoral care add-on is also included for the Smylies Homestay program offered in weeks 3 to 6

Not included in all packages are pocket money for personal spending, airfare to start and return to/ from location for Tours and travel insurance for personal belongings.

Want your own tour?

- We can quickly tailor a Tour for your school only
- We advise 20 students and 1 teacher per group as a optimal group size but any size is possible
- our driver/guide is your second staff member so you and your students save
